WHO WE ARE

Change Family Court is a non-profit organization that aims to bring awareness to the issues in our family court system (such as **lack of proper training, gender biases, and economic disparities**) that negatively influence child custody decisions, and to advocate for mandatory training, coercive control laws and policies that will better protect women, children and victims of domestic violence in our family court system.

WHAT WE FIGHT FOR

Mandatory Training

We advocate for all family court professionals to be trained on coercive control and domestic violence.

Coercive Control Laws

We advocate for coercive control laws to be implemented in Virginia and throughout the United States.

Safety & Justice

We fight against discrimination and other injustices that negatively impact a child's safety.
